

THE 26<sup>TH</sup> CONFERENCE OF THE

EUROPEAN SCHOOLS PROJECT ASSOCIATION

***Crossing Borders to meet Global Educational Challenges  
Through Innovative ICT***

HOSTED BY KARMØY PEDAGOGICAL CENTRE

IN COLLABORATION WITH THE COMENIUS 3 THEMATIC NETWORKS

## **Norway – Haugesund**

**March 14<sup>th</sup> – 18<sup>th</sup> 2012**

### **Programme**

#### **How to read this programme?**

ESP conferences are working conferences. At the end participants should have achieved something to take back home and to school: preferably an idea, outline, scenario or plan to actually implement with one's students in collaboration with one or more colleague-teachers and their pupils in another country.

The conference can be seen as a design process: we start with basic information about how to plan and run a computer supported collaborative learning project, then inspiration and at last we go on to design and planning sessions. Finally we publish the projects on the web what we have decided together.

This process means that we can only offer a rough guideline on what is actually going to happen. Please envisage yourself as an active participant able to contribute to the programme yourself!

This ESP working conference is about inter- and multidisciplinary projects in which ICT-based collaboration is a central issue, both within and between schools. The programme is addressed to teachers of subject areas like modern foreign languages, science and social sciences, teaching at different schools like primary, lower and upper secondary, vocational and special needs. In addition head teachers, educators from higher education and researchers are invited to join us in Haugesund, Norway.

We have a special focus on the head teachers who play a very important role in the International Collaboration at their schools.

We are convinced that you can successfully apply the knowledge acquired at the conference in your everyday teaching and other practices.
