

THE 27TH CONFERENCE OF THE

EUROPEAN SCHOOLS PROJECT ASSOCIATION

***Educating Global Citizens through
meeting innovative ICT
and Social Media***

HOSTED BY ANTONIUS COLLEGE, GOUDA

IN COLLABORATION WITH THE COMENIUS 3 THEMATIC NETWORKS

The Netherlands – Gouda
March 6th to March 10th 2013
Programme

Conference Information

ESP conferences are working conferences. At the end participants should have achieved something to take back home and to school: preferably an idea, outline, scenario or plan to actually implement with one's students in collaboration with one or more colleague-teachers and their pupils in another country.

The conference aims at providing delegates with the following structure for projects:

- information
- inspiration
- design and planning
- publishing

Please envisage yourself as an active participant able to contribute to the programme yourself!

ESP working conferences create inter-and multidisciplinary projects in which ICT-based collaboration is a central issue, both within and between schools. The programme is addressed to teachers of subject areas like modern foreign languages, science and social sciences, teaching at different schools like primary, lower and upper secondary, vocational and special needs.

In addition head teachers, educators from higher education and researchers are invited to join us in Gouda, The Netherlands.

There will also be a special focus for head teachers (senior management) who play a very important role in the International Collaboration at their schools. Participation in ESP conferences will enhance your Continued Professional Development (CPD)
